Saba Sher

DevOps Engineer

+92 344 0100255 | shersaba2005@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Science student at SZABIST Islamabad with hands-on Linux system programming, Bash and C++ experience, and a DevOps toolkit built on Git, Docker and CI/CD. DataCamp-certified in Python, JavaScript and React, with React Native and CSS skills for building front ends. Vice President of MLSA SZABIST Islamabad (2025 – 2026), leading technical events and a team of student volunteers. Seeking a DevOps Engineer role to automate, deploy and monitor reliable software.

EDUCATION

SZABIST University, Islamabad — Bachelor of Science in Computer Science (Feb 2024 – Present)
CGPA: X.XX / 4.00 | Expected graduation: 20XX
Relevant coursework: Operating Systems, Compiler Construction, Software Engineering, Discrete Mathematics, Differential Equations

TECHNICAL SKILLS

DevOps and Systems: Linux (Ubuntu, WSL), Bash scripting, Git and GitHub, Docker (learning), CI/CD with GitHub Actions (learning), AWS basics (learning), Terraform (learning)
Programming: C++, Python, JavaScript (ES6+), OOP
Frontend and Mobile: React Native, React, HTML5, CSS3
Data and Tools: Microsoft Excel (advanced functions, data analysis), Power BI, Adobe Illustrator, Photoshop

PROJECTS

Real-Time Linux Security Monitoring Dashboard — Group OS Lab Project (2026)
Tech: C++, pthreads, pipes, /proc filesystem, Linux (Ubuntu/WSL)
- Built a real-time monitoring dashboard in C++ that reads live system data from the Linux /proc filesystem.
- Used multithreading (pthreads) and inter-process communication (pipes) to collect and process data concurrently.
- Developed and tested in an Ubuntu environment on WSL as part of a three-member team.

Home Security System (Sep 2024 – Nov 2024)
Tech: C++, OOP
- Built a modular security system with motion detection, smart locks and real-time alarm triggers.
- Applied encapsulation, inheritance and polymorphism to keep the design extensible.
- Implemented user authentication and remote system control.

Toll Tax Management System (Dec 2024 – Jan 2025)
Tech: C++, OOP, file handling
- Automated toll calculation based on vehicle type, time and discounts.
- Integrated cash, digital wallet and RFID payment methods.
- Stored toll records and reports in files, supporting multiple toll booths.

Islamic Banking System (Feb 2024 – Mar 2024)
Tech: C++, OOP
- Designed customer, account and transaction modules based on interest-free (Islamic) finance principles.
- Implemented interest-free loan management with a six-month repayment window and a Zakat calculation module.

LEADERSHIP AND COMMUNITY

Vice President, MLSA SZABIST Islamabad (Microsoft Learn Student Ambassadors) (2025 – 2026)
- Lead the chapter's technical and community activities alongside the president and core team.
- Organize workshops, sessions and events that help students learn Microsoft technologies and cloud and development skills.
- Coordinate team members, speakers and outreach to grow student participation.

EXPERIENCE

Logo Designer, Nokia (Design Project) (Sep 2024 – Oct 2024)
- Designed professional logos aligned with brand identity using Adobe Illustrator and Photoshop.

CERTIFICATIONS

- Python – DataCamp | JavaScript – DataCamp | React – DataCamp
- Graphic Designing (Jul 2024 – Sep 2024)
- Preparing Data for Analysis with Microsoft Excel (Jan 2025 – Feb 2025)
- Harness the Power of Power BI (Jan 2025 – Present)

LANGUAGES

English, Urdu
